DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-26, drawn to polymeric screen with frame having intermediate strut.

Group II, claim(s) 28-34, drawn to screen modules and methods of mounting them using recess, groove, collet, and mounting means.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: they are wholly divergent in scope by any interpretation. Group I has a deck, a snap-in means of attachment, and recitations of material selection. Group II has collet, groove, recess, and non-specified fastening means. These are two wholly sets of claims, Group II being described in the specification as "another embodiment" and has seemingly no relation whatsoever to Group I. In the event that the inventions might be linked by a few words in common, no unity of invention can be alleged because Group II has approximately five structural elements that are not pertinent to Group I, and Group II does not mention "snap-in", which by itself could be put forth as an invention. These inventions will simply require separate search and separate rejections and have no unity of invention from any interpretation.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
